UNMATCHED STRUCTURE

American Made Quality from the Bottom Up

TOUGH FRONT END

Our boats have an extremely durable front bumper that is fully welded, created from reinforced 3" extruded aluminum C-channel.

AUTOMOTIVE & RESIDENTIAL STRUCTURE

The majority of our structural cross members are 16" on center or closer, similar to home construction. This provides a better structure and one that can take on many years of use.

UNRIVALED WELDS

Our team uses a combination of TIG hand welding and robotic MIG welds. We are so confident in our work that we provide a limited lifetime warranty on all our welds!

KEEP IT DRY

We include oversized spray deflectors on all our boats to make a dry ride every time.

CONSISTENT PRODUCTION

Every boat we build is made on the same production line and crafted with the same excellence and integrity across the board.
